REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. Regarding Claim 1, US Patent 5,641,164 to Doederline et al. discloses a talking trading card with a piezoelectric speaker (Fig. 9) comprising a piezoelectric ceramic disk 62 that corresponds to the piezo-electric member claimed, a metallic disk 64 that corresponds to the vibration plate claimed and a sound board 56. However, Doederline discloses the linkage between the metallic disk 64 that corresponds to the vibration plate claimed and the sound board 56 is thin flexible tape 66 that causes minimal damping (column 4, lines 1-4). As such, Doederline does not disclose an elastic member supporting the vibration plate on the sound board, as claimed. US patent 5,761,324 to Kanai et al. discloses a piezoelectric acoustic device (Fig. 3) with a piezoelectric plate 22 that corresponds to the piezo-electric member claimed, a metallic diaphragm 21 that corresponds to the vibration plate claimed and an elastic adhesive 14 that corresponds to the elastic member claimed (column 5, lines 1-5). However, Kanai discloses the metallic diaphragm 21 that corresponds to the vibration plate claimed mounted to a sound damper 11 rather than the sounding board claimed. Further, there is no teaching or suggestion in the prior art or in the knowledge of one of ordinary skill in the art to combine the elements in the transducers respectively taught in Doederline and Kanai to produce the claimed invention. As such, Claim 1 is allowable.
3. The remaining claims are allowable due to dependence from Claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
